PASSIONS

Mentorship and Leadership

Sharing knowledge and experience with junior developers and colleagues, mentoring them not just in technical skills but in best practices, critical thinking, and problem-solving methodologies.

SUMMARY

With over 14 years of experience as a Full Stack Developer, I have honed an extensive expertise across a broad spectrum of technologies, including React, Vue, Angular, AWS, Django, Java, JavaScript and Ruby. My proficiency in both backend and frontend development enables me to architect and lead the delivery of scalable, high-performance software solutions. A collaborative team player with excellent technical skills, I am adept at driving projects to successful completion and fostering innovation within teams. Fluent in English, I ensure seamless communication, bolstering team efficiency and project success.

EXPERIENCE

Software Engineer

Software Engineer

📅 01/2009 - 11/2014 📍 New York

- Increased user interaction by 35% within the first three months post-launch, as evidenced by the rise in daily active users and user-generated content.
- Improved content quality and user satisfaction scores by 25%, leveraging detailed feedback mechanisms and user behavior analytics to refine UI/UX features.
- Facilitated a 50% reduction in user-reported issues related to adding, modifying, rating, and deleting project ideas, streamlining operations and enhancing overall system usability.
- Led a cross-functional team in the agile development and iterative improvement of the UI, resulting in a 40% faster project idea submission process compared to previous versions.

Full Stack Web Developer

LEARN Academy

📅 02/2015 - 06/2019 📍 St Louis

- Strategically collaborated with over 20 clients to understand their site requirements, crafting tailored development plans and budgets that align with their visions and business goals.
- Successfully delivered 30+ projects on time and within budget, resulting in an average client satisfaction score of 4.8/5.
- Enabled a 20% average reduction in project costs for clients by optimizing resource allocation and leveraging cost-effective technologies, without compromising on quality.
- Facilitated a 15% increase in business for clients through the implementation of targeted development strategies that enhanced user engagement and online visibility.

Senior Full Stack Developer

AVIKA Solutions Pvt Ltd

📅 06/2020 - 11/2023 📍 San Diego

- Architected scalable RESTful and traditional web services, significantly enhancing system architecture.
- Boosted data processing speed by 40% through the optimization of JSON and XML-based communication protocols, facilitating faster and more reliable data exchanges between systems.
- Increased application scalability by successfully handling an average of 10,000+ concurrent users, demonstrating the robustness of the implemented web services architecture.
- Enhanced system interoperability, enabling seamless integration with 5+ external third-party services, which expanded the application's functionality and user reach.
- Achieved a 30% reduction in server load by refining data serialization and contributing to improved overall system performance and reliability.
